(a) Excess of births over deaths. (b) Excess of arrivals over departures. (c) Includes natural increase, net oversea migration and up to June, 1961, adjustments of population, on the basis of Census results. (d) The figures of Total Increase and Population have been revised in accordance with the results of the Census of 30th June, 1961. See also Note for table below. (e) Census 30th June.

POPULATION: STATES.

NOTE.—The estimated population at 31st March, 1962, for each State represents the population ascertained from the results of the Census of 30th June, 1961, plus natural increase and recorded net migration into the State for the period 1st July, 1961, to 31st March, 1962. As complete records of interstate migration are not available, the estimated State populations since 30th June, 1961, are approximate. Estimates shown below for the intercensal period 1st July, 1954, to 31st March, 1961, have been revised in accordance with results of the Census of 30th June, 1961. For some States such revisions were substantial.

(a) Excludes rural, female private domestics, permanent defence forces in Australia and overseas and, from June, 1952 to June, 1959, National Service trainees in camp. Estimated total employment is obtained from annual Factory Censuses, returns of Government employment, Pay-roll Tax returns and other direct collections. (b) Factory employment figures for periods to June, 1961 represent actual employment as recorded at successive annual Censuses of Factories. From July, 1961 the figures are interim estimates derived from Pay-roll Tax returns and other direct collections and are based on June, 1961. These interim estimates are subject to revision when Factory Censuses for 1961–62 and ensuing years are tabulated. (c) Includes Law and Order, Religion and Social Welfare, Health Services, Education and other Community and Business Services. (d) Includes all employees of Government authorities (Commonwealth, State, Local and Semi-Government) on services such as railways, tramways, banks, post offices, air transport, education, broadcasting, television, police, public works, factories and munitions establishments, migrant hostels, etc., as well as administrative employees, within Australia.

VALUE OF RETAIL SALES IN AUSTRALIA(a): COMMODITY GROUPS.

(Figures from 1952-53 inclusive are on a basis comparable with the 1956-57 Retail Census.)

The figures in the table below relate to retail sales of goods (as distinct from services, repairs, accommodation, entertainments, meals, etc.) by establishments which normally sell goods by retail to the general public from shops, rooms, kiosks and yards. Hotels, garages and service stations are also included in respect of goods sold, but establishments such as clubs and guest houses are entirely excluded. Figures for the years 1952-53 and 1956-57 are derived from censuses taken in respect of those years, whereas other figures are estimates made by means of sample surveys.

RETAIL SALES: HIRE PURCHASE OPERATIONS OF FINANCE BUSINESSES.

The following statistics relate to businesses which finance the sale of goods by retail, but do not retail goods themselves. Agreements originally made between retailers and customers, and subsequently assigned to finance businesses, are excluded from the particulars of agreements made during each month, but from the time of assignment are included in the figures for balances outstanding.

WHOLESALE TRADE.

An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. With certain specified exemptions, goods sold by wholesale in Australia, including imports, are taxable. The returns do not relate to all wholesale trade, as vendors trading only in exempt goods are not required to furnish returns. They do not necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degrees. Insufficient information is available to enable adjustment to be made to the crude figures on this account.

EXPORT PRICE INDEXES.

These index numbers are compiled from the prices of 20 commodities which normally constitute about 80 per cent. of all exports. In general the index numbers show price changes in the predominant market or markets for each commodity, but average prices realized for exports are used for some markets.

SIMPLE AGGREGATIVE INDEX: FIXED WEIGHTS.

In this index the weights are the average annual exports of each commodity (production in the case of gold) during the three years 1933-34 to 1935-36.

(Base of each Index: Average of 3 years ended June, 1939 = 100.)

(a) Silver, copper, tin, zinc, lead. (b) The individual items comprising the "Meats" group have been altered from October, 1960. In October, 1960, and subsequent months the meats group index has been varied by the movement in prices of beef, lamb, mutton and canned meats, weighted according to their average annual exports during 1956-57 to 1960-61. Guaranteed minimum prices are used when operative. (c) Sultanas, raisins, currants. (d) Cattle hides, calf skins.

(e) Nominal.

(f) Actual prices realized not yet known; provisional series are included in "All Groups" Indexes.

For meaning of symbol p, ..., see page 1.

EXPORT PRICE INDEXES—*continued.*

RECENT TRENDS—EXPORT PRICE INDEX—"WOOL" AND "OTHER GROUPS".

Group indexes in the table on page 20 show the great fluctuations and the wide dispersion of prices of export commodities in recent years. In particular, very great movements upwards and downwards have occurred in the price of wool. Since wool is a predominant export, and comprises 46 per cent. of the base aggregate of the index, fluctuations in wool prices obscure the effect on the All Groups Index of movements in prices of the other components. "Wool" and "Other Groups" are shown separately below.

NOTE.—The index numbers in the two preceding tables indicate satisfactorily the general trend of export prices, but do not take account of the relative quantities actually sold at the prices ruling in particular months. The "changing weights" index numbers, shown below, take account of this factor. In computing these, the weights used are the quantities actually exported (sold in some cases) in the months (or periods) to which the index numbers relate. The index numbers for the most recent available month are:—

All Groups.	Month of May.		Eleven months ended May.

WHOLESALE PRICE (BASIC MATERIALS AND FOODSTUFFS) INDEX.

Commodities in this index are priced in their primary or basic form wherever possible. The prices used have, in the main, been obtained directly from manufacturers and merchants. With a few important exceptions they are from Melbourne sources. The weighting system adopted is based on estimates of the average annual consumption of the commodities in Australia during the years 1928-29 to 1934-35 inclusive.

(a) Special purpose index for the "Metals and Coal" group excluding Coal and Briquettes for May, 1962, is 432.
(b) During 1956 these indexes were reconstructed from the base period by excluding potatoes and onions. For May, 1962, index numbers for these groups comparable with the previous indexes including potatoes and onions are: "Foodstuffs and Tobacco", 329; "Goods Principally Home Produced", p361; "Total All Groups", p334. (c) Represents only such imported commodities as are included in the Wholesale Price Index and does not measure changes in prices of all imports.

For meaning of symbol p, see page 1.

PRICE INDEX NUMBERS: VARIOUS COUNTRIES.

Source: *Monthly Bulletin of Statistics* of the Statistical Office of the United Nations.

The index numbers show fluctuations in prices in each country and do not measure relative price levels as between countries.

A short dash on each side of an index number (e.g., -95-) indicates that two series have been linked at that period. A line between two index numbers indicates that it is not possible to link two series (because of change in scope, etc.) and therefore the index numbers are not comparable with each other even though they are shown on the same base period.

SHARE PRICE INDEX.

This index relates to ordinary shares of the principal companies (excluding banks) listed on the Sydney Stock Exchange, whose business in New South Wales is extensive. The prices of individual shares are unweighted and each group average is the mean of the average monthly prices per £1 of paid-up capital. Adjustments are made for changes in the capital structure of the companies. The total index is the average of all the shares included in the groups with the addition of thirty-four miscellaneous shares.

(a) Weighted averages of minimum weekly rates payable for a full week's work (excluding overtime), as prescribed in awards, determinations and agreements. Excludes Rural. (b) Awards of, or agreements registered with, the Commonwealth Conciliation and Arbitration Commission, and determinations of the Commonwealth Public Service Arbitrator. (c) Awards or determinations of, or agreements registered with, State industrial tribunals, and certain unregistered agreements. (d) Because of the coverage and method of weighting, these rates differ from the "Six Capitals" Commonwealth basic wage rates shown on page 29. (e) Margins are minimum amounts, in addition to the basic wage, prescribed in awards, etc., as payable to particular classifications for skill, experience, arduousness and other like factors. (f) Loadings are minimum amounts, in addition to the basic wage and margin (if any), awarded for various kinds of disabilities associated with the performance of work, or to meet particular circumstances. They include payments such as industry loadings and other general loadings prescribed in awards, etc., for the occupations included in the Minimum Wage Rate Index.

(a) Automatic adjustment in accordance with variations in retail price index numbers discontinued as from 12th September, 1953. Rates operative from beginning of first pay-period commencing in month shown or commencing on or after the date shown.

(b) Automatic quarterly adjustments operative. To March, 1962, rates payable from beginning of first pay-period in month prior to that shown. (c) Automatic adjustments discontinued. Commonwealth rates adopted during 1959.

(d) Determined by State industrial tribunal—to March, 1961, after considering retail price index numbers; thereafter, only after a full inquiry. (e) Rates same as Commonwealth basic wage rates. (f) Determined each quarter by State industrial tribunal, after considering retail price index numbers. (g) Payable from beginning of first pay-period in February, 1962. (h) During July and August, 1961, Wages Boards adopted the Commonwealth basic wage rate. (i) 29th May, 1961. (j) 10th July, 1961. (k) 30th October, 1961. (l) Most Wages Boards adopted the Commonwealth basic wage rate from July, 1961.

AVERAGE WEEKLY TOTAL WAGES AND SALARIES PAID AND AVERAGE EARNINGS.(a)

The following figures are derived from employment and wages and salaries recorded on Pay-roll Tax returns, from other direct collections and from estimates of the unrecorded balance. Pay of members of the Defence Forces is not included. The figures are not seasonally adjusted. A seasonally adjusted quarterly index of average weekly earnings is published on page 2.

(a) Includes, in addition to wages at award rates, earnings of salaried employees, overtime earnings, over-award and bonus payments, etc. (b) Includes the Australian Capital Territory. (c) Includes the Northern Territory. (d) Total wages and salaries, etc. divided by total civilian employment expressed in male units. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings. As it is not possible to estimate the ratio of female to male earnings in the several States, the same ratio has been used for each State. Because the actual ratio may vary between States, precise comparisons between average earnings in different States cannot be made on the basis of the figures above.

NOTE.—Comparisons as to trend should be made for complete years or corresponding periods of incomplete years. Quarterly totals and averages are affected by seasonal influences.

BUILDING APPROVALS(a): AUSTRALIA.

As from the July, 1960 issue of the *Review*, the statistics of building approvals on pages 31 to 33 replace the statistics of building permits previously shown. b The new series uses a uniform approach in recording the numbers of individual houses and flats, adopts a more uniform classification of "government" and "private", and gives a slightly wider coverage.

(a) Prior to January, 1956, Department of Navy vehicles were included. (b) This series is not strictly comparable with the "on Register" series. (c) Registration in Victoria is according to purpose of use and not type of vehicle; consequently motor car registrations are overstated by the inclusion of commercial vehicles registered for private use. Prior to 12th November, 1951, primary producers' private cars registered in Victoria were included in commercial vehicle registrations. (d) Excludes the Northern Territory. (e) Includes ambulances and hearses prior to 1955-56. (f) Excludes ambulances and hearses prior to 1955-56.

(a) Excludes business of the Government Insurance Office of New South Wales and the Queensland State Government Insurance Office, which operate only in New South Wales and Queensland respectively. Monthly averages for the years 1937 to 1947 are based on annual returns for the financial years of the companies. From 1947-48 the figures have been compiled from monthly returns. (b) Relates to periods during which policies were recorded in company registers, which may be subsequent to periods in which written. Recordings tend to concentrate more in the last month of a company's year; months mainly affected are September and December. (c) Includes consideration for annuities. (d) Includes claims paid on death or maturity, payments made on surrender of policies, annuities and bonuses paid in cash. (e) Excludes advances of premiums. (f) Figures for earlier periods not available separately; included with Ordinary Business.

(a) Source: Reserve Bank. Net Gold and Foreign Exchange Holdings (Official and Banking Institutions). See page 22, Reserve Bank of Australia Statistical Bulletin, Financial Supplement, September, 1960, for a description of this series. Annual and December figures as at end of period, other figures last Wednesday of month. (b) Average of daily quotations. (c) Average of buying and selling rates for telegraphic transfers. (d) Selling rate. Direct quotation. (e) Source: Reserve Bank. Yields are to last date of redemption. Income tax rebate of 2s. in the pound has not been taken into account. Prior to July, 1959, rates applied to securities maturing in 2 and 12 years, estimated from rates on securities maturing in 0-5 and 10 or more years, respectively. Figures relate to last Wednesday in month. Since July, 1959, theoretical 2-year and theoretical 15-year securities. Average for the week is centred on last Wednesday of the month. (f) From 1956-57, includes all mortgages for corporations (other than banks and building societies) and individuals, except completely abnormal amounts of £1 m. or more in months in which large mortgages are few in number. Certain other refinements previously incorporated in the series have now been excluded in order to indicate current trends more accurately. Figures prior to 1956-57 have not been adjusted, but the variation between the adjusted and unadjusted series in these earlier years is negligible. (g) Weighted average twelve months. (h) Under 5 years taxed at 1930 Commonwealth rate. (i) Ten years and over taxed at 1930 Commonwealth rates. (j) Urban securities only. (k) Rural and urban securities. (l) Average rate on mortgages registered in three months ending with month shown.

(a) Figures for N.S.W. represent combined transactions of Consolidated Revenue Fund and Business Undertakings—Railways, Tramways, Omnibuses and Sydney Harbour Trust Section of Maritime Services Board—included in annual Budget Papers. Adjustments have been made to exclude duplications. (b) To avoid duplication in aggregating particulars for the Commonwealth and States, the grand totals have been adjusted to exclude State payments to the Commonwealth in respect of pay-roll tax and Commonwealth payments to the States included in State Consolidated Revenue Funds in respect of the interest on State debts, special grants, uniform taxation, special financial assistance, grants to universities, tuberculosis capital expenditure and National Welfare Fund payments. There are other relatively minor payments for which adjustments have not been made and the adjusted figures are therefore still slightly overstated.
